About Sanguinarius.org

Established in the summer of 1997, Sanguinarius offers support, information and resources for real vampires, blood drinkers, psi-vampires, Vampyre lifestylers, donors, and the curious. It offers informational articles on a variety of subjects including blood, feeding, safety and health precautions, psychic shielding techniques, and various social aspects that today's real vampires face. Also included is the Vampire Guide, Tips and Advice, a repository of Sanguinarius' and user-submitted knowledge and helpful information for dealing with awakening, feeding, various physical and health aspects, and much, much more. The Support Page also offers "Problems Vampires Have" to let visitors know that they are not alone in what they are going through, as well as "Fun Vampires Have".

Sanguinarius.org is home to The Real Vampire Directory, a search engine and directory of real vampire sites, information, and resources; #Sanguinarius, an IRC channel (chat room) on dal.net where guests can meet and chat in real time, ask questions, hold discussions, or get support; the Vampiric Community Message Board, which contains much additional information which may not be included on the web page, questions posted by visitors, and various ongoing discussions on a variety of topics; the Vampiric Community Events Calendar, where users can view and post events of interest to the vampiric community: online chats, offline Gatherings, and other vampire-related events. We also have a list of terminology commonly used by those in the community, frequently asked questions (FAQs), and much more. It's an extensive site, so plan to spend some time on the site.

Sanguinarius.org also hosts a limited number of users' web pages, so be sure to stop by and check them out when you visit us.

Sanguinarius Statements of Purpose

(1/9) To establish and maintain a national/worldwide communication, information, and support network for all blood-drinkers, psi/energy vampires, and Vampyre lifestylers;

(2/9) To increase communication and understanding among and concerning blood-drinkers, psi/energy vampires, and Vampyre lifestylers; as well as to work toward unification into a cohesive culture;

(3/9) Within the larger vampiric community, to create a community of blood-needers and other kinds of blood-drinkers; to provide education on technique and safety; and to increase communication and understanding among the different kinds of blood-drinkers;

(4/9) To build, strengthen, and defend individuals, organizations, and publications within the greater vampiric community, especially against discrimination, and threats to their personal safety and welfare, peace of mind, freedom of expression, freedom to practice, right to free association, right to exist peacefully, and right to equal protection and treatment under the Law;

(5/9) To develop outreach and a system of support for those estranged from the vampiric community;

(6/9) To guide and influence in a positive manner those who are or may be vampires, and to influence people away from entertaining false hopes and ideas in what it is like to be a vampire, so that they do not desire to become one, based on these false notions;

(7/9) To facilitate the destruction of stereotypes, misconceptions, and media misrepresentations; and to provide, through strategic dissemination of information, publications, et cetera, a foundation for the acceptance and tolerance of blood-drinkers, psi/energy vampires, and Vampyre lifestylers;

(8/9) To support, encourage, and aid individuals and organizations in their desires or efforts to disseminate factual information (and combat misinformation and misconceptions), provide resources, gather data/conduct research beneficial and relevant to the vampiric community;

(9/9) To establish and maintain a standard and acceptable code of ethics and conduct within the community; and to regulate the reasonable enforcement of this code, when necessary.

(Current revision adopted Thurs., 11 April, 2002.)
